

AWR Ready?

RDB ProNet? Of course!

What else would you expect from a leading recruitment software supplier?

At First Choice Software we've thought long and hard about the AWR and have come up with a solution in a new release of RDB ProNet to ease the burden of administration and to help keep you compliant.

We manage the huge complexity of consolidated clocks that tick and pause and reset and that may even continue to run when no work is being done for you (including third party working)! We automate requests for parity information, give you a place to store it and give you compliance status reports whenever you need them.

If you've got ProNet you don't have to fear the AWR!

rdb ProNet
